AWARDS

88P, Best Buy, in Wine Enthusiast, January 2016

PRESERVATION

Storage or preservation conditions are very importante i fone wants to preserve the wine characteristics and guarantee a steady evolution over time. The storage place should be ventilated to prevent proliferation of fungi and guarantee suitable room temperature. Bottles should be kept in a horizontal position safe from oscillations, vibrations or unpleasant odours. The wine must furthermore be stored way from light and in a high relative humidity environment.
